The Three Financial Statements

Every business owner must understand these reports:

1. Profit & Loss (Income Statement) Shows: Revenue, expenses, and profit over a period

```
PROFIT & LOSS STRUCTURE
──────────────────────────────────────────────────────
Revenue                                    $______
  - Cost of Goods Sold (COGS)             ($______)
──────────────────────────────────────────────────────
= Gross Profit                             $______
  Gross Margin = Gross Profit / Revenue    ______%

  - Operating Expenses
    Salaries & Wages                       ($______)
    Rent & Utilities                       ($______)
    Marketing                              ($______)
    Software & Tools                       ($______)
    Professional Services                  ($______)
    Other Operating                        ($______)
──────────────────────────────────────────────────────
= Operating Income (EBITDA)                $______
  Operating Margin = EBITDA / Revenue      ______%

  - Depreciation & Amortization            ($______)
  - Interest Expense                       ($______)
──────────────────────────────────────────────────────
= Pre-Tax Income                           $______

  - Taxes                                  ($______)
──────────────────────────────────────────────────────
= Net Income                               $______
  Net Margin = Net Income / Revenue        ______%
```

2. Balance Sheet Shows: What you own, what you owe, and what's left over

```
BALANCE SHEET STRUCTURE
──────────────────────────────────────────────────────
ASSETS (What You Own)
Current Assets:
  Cash & Bank Accounts                     $______
  Accounts Receivable                      $______
```

```
  Inventory                                $_____
  Prepaid Expenses                         $_____
──────────────────────────────────────────────────
Total Current Assets                       $_____

Fixed Assets:
  Property & Equipment                     $_____
  Less: Accumulated Depreciation          ($_____)
──────────────────────────────────────────────────
Total Fixed Assets                         $_____

Other Assets:
  Intangibles, Deposits                    $_____
──────────────────────────────────────────────────
TOTAL ASSETS                               $======

LIABILITIES (What You Owe)
Current Liabilities:
  Accounts Payable                         $_____
  Credit Cards                             $_____
  Current Portion of Debt                  $_____
  Accrued Expenses                         $_____
──────────────────────────────────────────────────
Total Current Liabilities                  $_____

Long-Term Liabilities:
  Long-Term Debt                           $_____
  Other Long-Term                          $_____
──────────────────────────────────────────────────
TOTAL LIABILITIES                          $_____

EQUITY (What's Left)
  Owner's Equity / Retained Earnings       $_____
──────────────────────────────────────────────────
TOTAL LIABILITIES + EQUITY                 $======
```

3. Cash Flow Statement Shows: Where cash came from and where it went

```
CASH FLOW STATEMENT
──────────────────────────────────────────────────
OPERATING ACTIVITIES
  Net Income                               $_____
  + Depreciation (non-cash expense)        $_____
  - Increase in Receivables               ($_____)
  + Decrease in Receivables                $_____
  - Increase in Inventory                 ($_____)
  + Increase in Payables                   $_____
──────────────────────────────────────────────────
Cash from Operations                       $_____
```

```
INVESTING ACTIVITIES
  - Purchase of Equipment                ($_____)
  + Sale of Assets                        $_____
____________________________________________________
Cash from Investing                       $_____

FINANCING ACTIVITIES
  + New Debt/Loans                        $_____
  - Debt Repayment                       ($_____)
  + Owner Investment                      $_____
  - Owner Distributions                  ($_____)
____________________________________________________
Cash from Financing                       $_____

____________________________________________________
NET CHANGE IN CASH                        $_____
Beginning Cash                            $_____
____________________________________________________
ENDING CASH                               $======
```

Setting Up Your Chart of Accounts

Organize your accounts for clarity:

Revenue Accounts (4000s)

- 4100 Product Sales
- 4200 Service Revenue
- 4300 Recurring Revenue
- 4400 Other Income

Cost of Goods Sold (5000s)

- 5100 Direct Materials
- 5200 Direct Labor
- 5300 Shipping/Fulfillment

Operating Expenses (6000s)

- 6100 Payroll & Benefits
- 6200 Rent & Utilities
- 6300 Marketing & Advertising
- 6400 Software & Technology
- 6500 Professional Services
- 6600 Insurance

- 6700 Travel & Entertainment
- 6800 Office & Supplies
- 6900 Other Operating

Minimum Target     $___   $___   $___   $___
Above/Below Target $___   $___   $___   $___
```

Cash Flow Rules

Rule 1: Know Your Cash Cycle

```
Days to Get Paid (Receivables)        _____ days
+ Days of Inventory on Hand           _____ days
- Days to Pay Suppliers (Payables)    _____ days
= Cash Conversion Cycle               _____ days
```

Rule 2: The 3-Month Reserve Keep 3 months of operating expenses in cash at all times.

Rule 3: Invoice Immediately Revenue isn't real until it's collected. Invoice the same day work is completed.

Rule 4: Manage Payables Strategically

- Pay early for discounts (2/10 net 30 = 36% annual return)
- Use full terms when cash is tight
- Negotiate longer terms with vendors

Improving Cash Flow

Speed Up Collections:

- Invoice immediately
- Offer early payment discounts
- Accept credit cards
- Send reminder before due date
- Follow up on day 1 of being late
- Consider factoring for large receivables

Slow Down Payments (Strategically):

- Use full payment terms
- Negotiate 45 or 60-day terms
- Time large purchases carefully
- Use credit cards with grace periods

Reduce Cash Tied Up:

- Minimize inventory
- Require deposits on large orders
- Subscription/recurring revenue models
- Renegotiate fixed costs

Break-Even Calculator

Know your threshold

Creating Your Annual Budget

Step 1: Revenue Forecast

```
REVENUE BUDGET
_____________________________________________________
Product/Service        Units    Price    Revenue
_________________      ____     $____    $______
_________________      ____     $____    $______
_________________      ____     $____    $______
_____________________________________________________
Total Revenue                             $______

Assumptions:
- Growth rate: ____% from prior year
- Seasonality: ____________________
- New products/services: ____________
```

Step 2: Expense Budget

```
EXPENSE BUDGET
_____________________________________________________
Fixed Costs (Monthly)
  Rent                                    $______
  Insurance                               $______
  Software/Tools                          $______
  Salaries (base)                         $______
  Loan Payments                           $______
_____________________________________________________
Total Fixed (Monthly)                     $______
Total Fixed (Annual)                      $______

Variable Costs (% of Revenue)
  COGS                                    ____%
  Sales Commissions                       ____%
  Payment Processing                      ____%
  Shipping                                ____%
_____________________________________________________
Total Variable                            ____%
```

Step 3: Monthly Budget Template

```
MONTHLY BUDGET TEMPLATE
_____________________________________________________
               Jan    Feb    Mar    Apr   ... Total
Revenue       $___   $___   $___   $___      $___
COGS          $___   $___   $___   $___      $___
Gross Profit  $___   $___   $___   $___      $___

Operating Expenses:
 Payroll      $___   $___   $___   $___      $___
 Rent         $___   $___   $___   $___      $___
 Marketing    $___   $___   $___   $___      $___

```

Budget vs. Actual Analysis

Review monthly:

```
VARIANCE ANALYSIS
_____________________________________________________
Category         Budget     Actual     Variance    %
Revenue         $______    $______    $______    ___%
COGS            $______    $______    $______    ___%
Gross Profit    $______    $______    $______    ___%
Operating Exp   $______    $______    $______    ___%
Net Income      $______    $______    $______    ___%

KEY VARIANCES TO INVESTIGATE:
1. _______________________ (Variance > 10%)
2. _______________________
3. _______________________
```

07

Financial Health Scorecard

Grade your business

The Pricing Framework

Cost-Based Pricing

```
Direct Costs per Unit              $______
+ Overhead Allocation              $______
= Total Cost per Unit              $______
× Markup (e.g., 1.5x)             ______
= Selling Price                    $______
```

Value-Based Pricing

```
Customer's Alternative Cost        $______
or Customer's Gain from Your Solution  $______
× Value Capture (10-30%)           ______
= Your Price                       $______
```

Competitive Pricing

```
Competitor A Price                 $______
Competitor B Price                 $______
Market Average                     $______
Your Differentiation Value         $______
= Your Price                       $______
```

Pricing Psychology

TECHNIQUE	EXAMPLE	WHY IT WORKS
Charm pricing	$99 vs $100	Left-digit bias
Anchor pricing	~~$500~~ $299	Anchoring effect
Tiered pricing	Good/Better/Best	Choice architecture
Bundle pricing	$200 separately, $150 together	Perceived value

TECHNIQUE	EXAMPLE	WHY IT WORKS
Decoy pricing	Three tiers, middle looks best	Asymmetric dominance

Price Increase Playbook

When to raise prices:

- Costs have increased
- Demand exceeds capacity
- You're below market
- You've added value
- It's been more than 12 months

How to communicate:

```
PRICE INCREASE EMAIL TEMPLATE
──────────────────────────────────────────────────

Subject: Important update about your [product/service]

Dear [Customer],

Over the past [timeframe], we've invested significantly
in [improvements, features, quality].

Starting [date], our pricing will be adjusted:
Current: $[old price]
New: $[new price]

For valued customers like you who [loyalty qualifier],
your current rate is locked until [later date].

Here's what you're getting with this investment:
• [Benefit 1]
• [Benefit 2]
• [Benefit 3]

Thank you for your continued partnership.

[Signature]
```

Implementation Guide

Put it all into action

Profitability Metrics

```
PROFITABILITY DASHBOARD
──────────────────────────────────────────────────────
Metric                Formula                  Target
Gross Margin          (Rev - COGS) / Rev       >50%
Operating Margin      EBITDA / Revenue         >20%
Net Margin            Net Income / Revenue     >10%
ROI                   Net Income / Investment  Varies
```

Liquidity Metrics

```
LIQUIDITY DASHBOARD
──────────────────────────────────────────────────────
Metric                Formula                  Target
Current Ratio         Current Assets / Liab    >1.5
Quick Ratio           (CA - Inventory) / CL    >1.0
Cash Ratio            Cash / Current Liab      >0.2
Working Capital       Current Assets - Liab    Positive
Days Cash on Hand     Cash / Daily Expenses    >90 days
```

Efficiency Metrics

```
EFFICIENCY DASHBOARD
──────────────────────────────────────────────────────
Metric                Formula                  Target
Receivables Days      (AR / Revenue) × 365     <30 days
Payables Days         (AP / COGS) × 365        45+ days
Inventory Turns       COGS / Avg Inventory     Varies
Revenue/Employee      Revenue / FTEs           $150K+
```

Growth Metrics

```
GROWTH DASHBOARD
──────────────────────────────────────────────────────
Metric                Formula                  Target
Revenue Growth        (New - Old) / Old        >20%
```

```
Customer Growth      (New - Old) / Old       >15%
MRR/ARR Growth       Month-over-month        >5%
Net Revenue Ret.     (Ending - New) / Start  >100%
```

Monthly Executive Dashboard

Review this every month with your leadership team:

```
EXECUTIVE FINANCIAL DASHBOARD

Weekly Cash Dashboard

Check every Monday:

Checklist

- [ ] _____
- [ ] _____

Tax Calendar (US)

DATE	ACTION
Jan 15	Q4 estimated taxes due
Jan 31	W-2s, 1099s to employees/contractors
Mar 15	S-Corp/Partnership returns due
Apr 15	Individual/C-Corp returns due; Q1 estimated
Jun 15	Q2 estimated taxes due
Sep 15	Q3 estimated taxes due; Extended returns due

Tax Reduction Strategies

Entity Structure:

- S-Corp election can reduce self-employment tax
- Reasonable salary required, but profits pass through

Retirement Accounts:

- Solo 401(k): Up to $66,000 (2024)
- SEP-IRA: Up to 25% of compensation
- SIMPLE IRA: Up to $16,000 + employer match

Deductions:

- Home office (dedicated space required)
- Vehicle (actual expenses or standard mileage)
- Business meals (50% deductible)
- Professional development
- Health insurance (self-employed deduction)

Working with an Accountant

What to expect:

- **Monthly/Quarterly:** Bookkeeping review, estimated taxes
- **Year-End:** Tax planning strategy session
- **Tax Filing:** Preparation and submission
- **Ad Hoc:** Advice on major decisions

What to prepare for meetings:

- Bank and credit card statements
- Invoices and receipts
- Payroll reports
- Loan statements
- Questions prepared in advance

The Investment Decision Framework

For any significant expenditure:

Checklist

Hire vs. Outsource Calculator

Checklist

- [ ] Hire when hours > _____ consistently
- [ ] Outsource when hours < _____ or variable
- [ ] Hybrid approach

Financial Red Flags

Watch for these warning signs:

Cash Flow:

- Consistently negative operating cash flow
- Relying on credit to make payroll
- Receivables growing faster than revenue

Profitability:

- Declining gross margin
- Operating expenses growing faster than revenue
- Negative EBITDA

Balance Sheet:

- Current ratio below 1.0
- Increasing debt without corresponding growth
- Customer concentration >30%
